Experiment-9

SIMATS Hospital Information System.

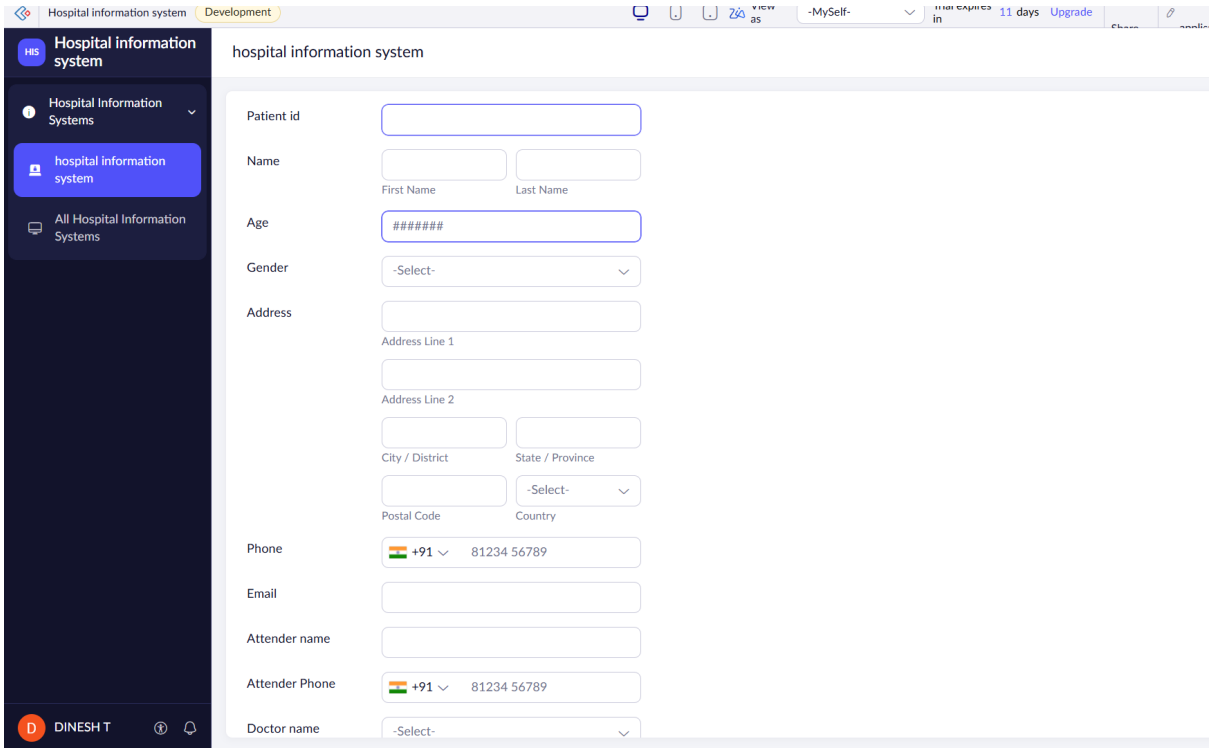

Aim

To create a cloud-based Hospital Information System for SIMATS Hospital using Zoho Creator to demonstrate Software as a Service (SaaS).

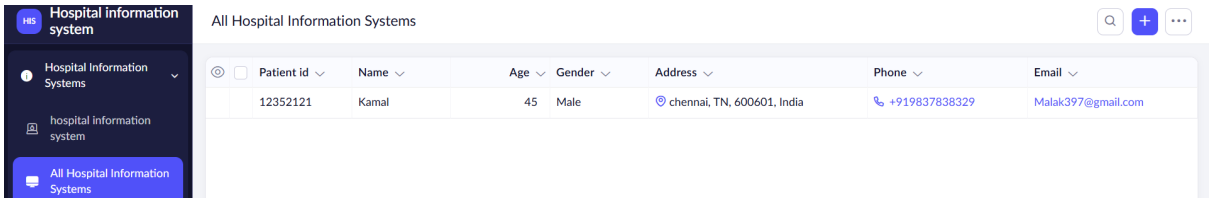

Procedure

1. Open Zoho Creator and create a new application named SIMATS Hospital Information System.
2. Create a form named Patient Information Form.
3. Add fields such as Patient Name, Age, Address, Phone Number, Email, Attender Name, Attender Phone, Doctor Name, Department, Disease and Appointment Date.
4. Configure dropdown choices for Gender, Department and Patient Status.
5. Save the form and open the live application.
6. Enter sample patient details and submit the form.
7. View and manage the submitted patient records in the report.

Implementation

Output

Result

Successfully created a cloud-based Hospital Information System using Zoho Creator to collect and manage patient details, attendant information, doctor details and health-related records.
