Experiment-2

Property Buying & Rental process

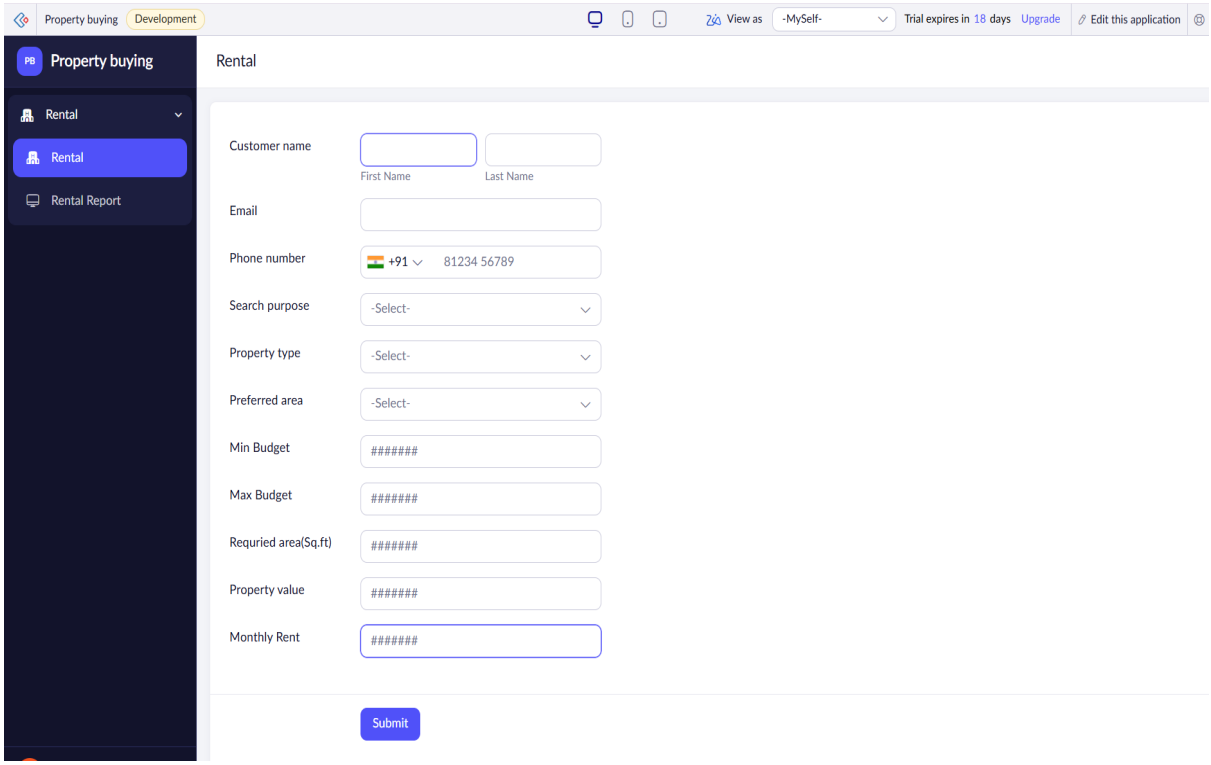

Aim

To create a cloud-based Property Buying and Rental Management System for Chennai City using Zoho Creator to demonstrate Software as a Service (SaaS).

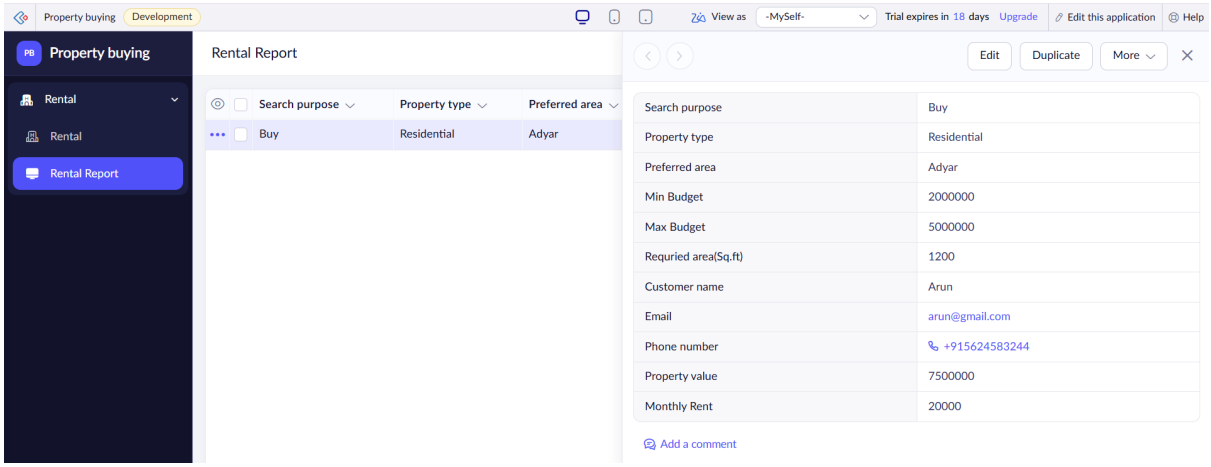

Procedure

1. Open Zoho Creator and create a new application named Property Management System.
2. Create a form named Property Listing Form.
3. Add fields such as Customer Name, Property Purpose (Buy/Rent), Property Type (Residential/Commercial), Area, Place, Budget Range, Property Value, and Rental Agreement.
4. Configure the dropdown and radio button choices.
5. Save the form and open the application.
6. Enter sample property details and submit the form.
7. View the submitted property records in the report.

Implementation

Output

Result

Successfully created a cloud-based Property Buying and Rental Management System using Zoho Creator to collect and manage property details in Chennai City.
